

KCGM Media Statement Tuesday 26th October 2010

Take a Tour With a Difference

Ever felt like taking a tour of Australia's Largest Open Cut Gold Mine? Well how about one from the comfort of your own home?

After several months of careful planning (and a fair bit of creative choreography) we are excited to announce a new addition to the KCGM website – a 360 degree full screen virtual tour of the Super Pit operations.

“We are very excited to share the tour with everyone and it’s quickly becoming one of the most frequented pages on our website,” said Holly Phillips, KCGM Snr Community Relations Officer.

“Visitors are able to get a rare glimpse into many of the places a normal tour cannot go and the end result is a world-class tour taking in a whopping 18 different locations across site!”

Sites featured include the Block 45 truck park up area, the Fimiston Control Room, drilling, the Pit floor, inside the heavy vehicle workshop and much much more.

Prospective ‘passengers’ can access the virtual tour by simply clicking on the home page of the KCGM website at **www.superpit.com.au**.

“The best part is you don’t even have to set foot outside your front door!” she said.
