Minutes of the meeting held 14<sup>th</sup> April 2013 were moved by Susan Gatti and seconded by Kevin Smallhorn.

**5. BUSINESS ARISING FROM MINUTES**

Nil.

**6. AGENDA ITEMS**

**Tailings Storage Facilities (Jess Dudley / Mark van Maanen)**

- Tailings overview:
  - A tour of the Fimiston II tailings storage facility was provided to the CRG members.
  - The tailings slurry is fundamentally the material left behind once all the gold has been recovered into gold bullion.
  - Currently there are four active tailings storage facilities at KCGM.  
Since 1999, KCGM has significantly increased the groundwater depth trends.
  - Ongoing monitoring indicates there has not been negative impacts to vegetation around the TSF's.
- Future projects:
  - KCGM is seeking approval to increase the height of the Fimiston II TSF as additional capacity is required.
  - Mining Proposal and Works Approval applications are currently being prepared for submission in Quarter 2, 2013. To enable planned deposition strategy to commence, approval is required by 2015.
  - Fimiston I is near maximum capacity. There is 25million tonne remaining capacity at Fimiston II and 50million tonne remaining capacity at Kaltails.
  - Fimiston II height increase will provide an extra 56Million tonne capacity which will meet requirements to 2023.

**Environment Reporting (Michelle Berryman)**

- Incidents:
  - One SO<sub>2</sub> incident which is being investigated.
  - A monitoring bore recorded water level at less than two meters after heavy rainfall.
  - Two dead birds were found in the Gidji II TSF netting and one swan was captured in the pit and released.

## Social Responsibility (Michelle Berryman)

### Activities in March:

- 20 volunteer hours for Boulder Market Day.
- 27 Media reports in March, 7 positive, 19 neutral and 1 negative.
- There was sponsorship donation approved in March with a value of \$212.
- In March KCGM had 52 recorded public interactions, 9 were complaints: SO<sub>2</sub> (8), and Road Safety (1).
- An overview of the past 6 months of Super Pit Shop visitors and proceeds was shown.
  - 924 visitors visited the Super Pit Shop in March.

## 7. GENERAL BUSINESS

MB advised that we are currently looking to employ a business and marketing person to assist with the daily running of the Hannan's North Tourist Mine.

TS asked if there was a blast this morning as there was a significant plume of dust visible. MB advised that we did blast today, and the blast was carried out within guidelines. MB will confirm and report back to the CRG on this.

TS advised that he noticed noise from the conveyor belt at 10pm and asked if it was supposed to be operating at this time. MB advised that the conveyor belt is supposed to be shut down at 7pm at night, she will check on this and will e-mail the outcome to the CRG members.

KS advised the CRG that he will be an apology for the next 2 CRG meetings.

## 8. ACTIONS LIST

Action	Person Responsible	Timeframe	Notes
Follow up dust and noise queries	MB	End of Month	
GEDC Presentation on Portlink	Mia Hicks	May CRG Meeting
