

FLEET LIST

Visitors to KCGM's Super Pit Lookout marvel at the size of the Fimiston Open Pit and, once their eyes adjust to the scale, they track the giant 793 haul trucks which can be seen winding up the Pit ramps with their payloads of ore or waste rock, bound for the Fimiston Processing Plant or a waste rock dump. The 40 793 trucks are part of a fleet of heavy duty vehicles which includes the Pit's biggest mechanical monster, the Komatsu PC8000 Face Shovel, as well as excavators, dozers and graders.

The fleet at Mt Charlotte Underground Mine includes low-profile trucks and equipment such as jumbos, loaders and long hole drills specifically designed for underground work.

40

Haul Trucks:

36 Caterpillar 793C
4 Caterpillar 793F

FIMISTON OPEN PIT

4

Face Shovels:

Komatsu PC8000

4

Water Carts:

2 Caterpillar 777B
2 Caterpillar 785B

3

Excavators:

2 Komatsu PC1250
1 Komatsu PC2000

2

Graders:

Caterpillar 16M

1

Loader:

Le Tourneau 1850

FIMISTON OPEN PIT

6

Trucks:

Atlas Copco MT5010

MOUNT CHARLOTTE

4

Loaders:

2 Caterpillar R1700G
2 Caterpillar R2900G

3

Integrated Tool (IT) Carriers:

2 Caterpillar 930
1 Caterpillar 950

2

Twin Boom Jumbos:

1 Atlas Copco 352
1 Atlas Copco M2D

2

Long Hole Drills:

1 Atlas Copco M7C
1 Atlas Copco 1357

1

Grader:

Caterpillar 12G
