

Water, Earth, Heart, Wind and Fire - by Goldfields artist Jason Dimer for KCGM

## Media Release

22 June 2020

### New roles at KCGM

KCGM's residential workforce is set to grow with recruitment processes commencing for a number of new, permanent residential positions.

With opportunities for experienced Truck, Shovel and Ancillary operators, these critical roles will join KCGM's iconic Fimiston Open Pit (Super Pit) operation.

KCGM General Manager Kous Kirsten said these positions will support both current and future business objectives, including sustainable growth and creating shared value opportunities for the local community.

"This is an exciting step for the new KCGM, as we look to grow our people and operations, and continue to deliver benefits for the Kalgoorlie-Boulder community," Kous said.

"Welcoming new members to the KCGM team will enable us to safely capitalise on growth opportunities, positioning KCGM as an industry-leader in the Goldfields."

With recruitment targeted at local, state and interstate markets, Kous said these positions would provide opportunities for local people, and may entice others to relocate to Kalgoorlie-Boulder.

"KCGM has a long history in Kalgoorlie-Boulder, and our residential workforce is part of the local community."

"We have a lot to offer people wanting to develop their careers on a family-friendly roster, five minutes from home."

"We are looking for highly-motivated, experienced people to join our dynamic team and experience the exciting future that awaits KCGM."
